LRMS Parent Night

The SOS Program: Signs of Suicide & Depression and Suicide Prevention

Tuesday, March 21, 2017
6:00 - 7:00 PM
Ladera Ranch Middle School MPR
Presented by: School Counselors

Counselors will be discussing the implementation of the SOS curriculum in your students’ classrooms.

Students will understand that depression is treatable and be able to assess whether or not they have symptoms consistent with depression

Students will understand that suicide is preventable and often results from untreated symptoms of depression

Students will be trained in identifying signs of serious depression and suicidal behaviors, and understand that they can take steps to help themselves or a friend by talking to an adult and getting help

Counselors Tom Bogiatzis & Alexandra Todd look forward to seeing you there!
